

A Unified Core Platform for P&C Insurance

Modernise your core insurance system for speed, accuracy and growth

Axon is Keylane's **leading core platform for European insurers**, supporting the full insurance lifecycle.

With no-code configuration, AI-powered processes, open APIs, and built-in compliance and localisation, Axon enables insurers to **operate efficiently, adapt quickly, and innovate** with confidence across all lines of business.

Providing **complete control** over products, processes and data, Axon helps insurers deliver at speed, scale with confidence, and meet regulatory demands – all on a **single, modular platform**.

Built to Solve Today's Insurance Challenges

Greater operational efficiency

Faster time to market

Built-in compliance

Scalable, future-ready architecture

"With Axon, we are now able to bring relevant insurance products to market much faster and more efficiently. Our new cyber insurance product is just the beginning. Thanks to the powerful core platform, we can scale flexibly, respond dynamically to customer needs, and secure our competitiveness in a rapidly changing market environment."

Modular by Design. Unified in Purpose.

Axon is made up of fully integrated modules that support the entire insurance lifecycle all working seamlessly from a shared core.

Axon fits seamlessly into your ecosystem

Built with open APIs, a flexible plugin framework, and a rich network of partner solutions, Axon **connects** to your bespoke systems, as well as third party solutions:

Points of sale and customer portals

Intermediary portals

CRMs and Financial systems

Pricing and rating engines

Document management

Data, analytics and audit tooling

Flexible Delivery Model

A **modern SaaS solution** consisting of Axon cloud services, monthly software updates and 24/7 support to ensure your full service catalogue remains available and performs optimally.

Keylane offers **multiple options**, including true EU sovereign private cloud, public cloud and on-premise solutions, ensuring reliable, secure service which scales with your needs.

Proven Implementation. Zero Disruption.

Over **60 successful migrations** and **100% success rate**, Axon implementations are fast, structured, and low-risk. Experts guide you through every phase, from configuration to go-live, ensuring continuity, compliance, and confidence from day one.
